3. (Unclassified - RC) LIAISON Called Tom Susman, Chief Counsel, Subcommittee on Administrative Practice and Procedure, Senate Committee on the Judiciary, to advise him that the Senate Select Committee has asked for our records on the Long Committee hearings in 1965. Explained it was our practice to provide such records to the committees concerned, for passage to the Senate Select Committee. Accordingly, I will be sending him some materials on our contacts with the Long Committee for his consideration for passage to the Senate Select Committee. Susman said he agreed with this procedure and added that their records were so bad that they could not provide the information required.

4. (Unclassified - RC) ADMINISTRATIVE DELIVERIES Dropped off a letter for Congressman Thomas E. Morgan, (D., Pa.) Chairman of the House Committee on International Relations and picked up from the same office, a transcript of Dr. Henry A. Kissinger's, Secretary of State, 6 November testimony. Also picked up a package of materials from the Joint Atomic Energy Committee.
